TABLE OF CONTENTS

		PAGE
Sporogenesis in Nephrodium. Contributions from the Hull Botanical Laboratory **106** (with plates I–IV)	*Shigéo Yamanouchi*	1
The development of the pollen of Sarracenia (with plate V)	*M. Louise Nichols*	31
Embryogeny of Arisaema triphyllum (with twenty-four figures)	*James Ellis Gow*	38
The toxic effect of certain common salts of the soil on plants (with one figure)	*Florence N. Magowan*	45
The toxic action of certain organic plant constituents (with seven figures)	*Oswald Schreiner and Howard S. Reed*	73
Some new cases of Mendelian inheritance (with four figures)	*George Harrison Shull*	103
The antagonistic action of magnesium and potassium (with three figures)	*W. J. V. Osterhout*	117
Nereocystis and Pelagophycus	*William Albert Setchell*	125
Spermatogenesis, oogenesis, and fertilization in Nephrodium. Contributions from the Hull Botanical Laboratory **107** (with plates VI–VIII)	*Shigéo Yamanouchi*	145
The carbon assimilation of Penicillium. Contributions from the Hull Botanical Laboratory **108**	*Heinrich Hasselbring*	176
The relation of plant societies to evaporation (with nine figures)	*Edgar N. Transeau*	217
Further studies of solution tension and toxicity in lipolysis	*Raymond H. Pond*	232
A quantitative study of transpiration (with two figures and thirty graphs)	*Grace Lucretia Clapp*	254
Apogamy in Nephrodium. Contributions from the Hull Botanical Laboratory **109** (with plates IX and X, and three text figures)	*Shigéo Yamanouchi*	289
Alpine vegetation in the vicinity of Long's Peak Colorado (with eight figures)	*William S. Cooper*	319
Relation of megaspores to embryo sacs in angiosperms. Contributions from the Hull Botanical Laboratory **110**	*John M. Coulter*	361
The physiology and development of some anthracnoses (with seventeen figures and plate XI)	*Claude Wilbur Edgerton*	367

BRIEFER ARTICLES—

The physiological constants of plants commonly used in American botanical laboratories - *Sophia Eckerson* 50

The condition of certain winter buds - - - *William Moore* and *Mary E. Behney* 54

Notes on cleistogamy of grasses (with five figures) *Agnes Chase* 135

A new species of Achlya (with six figures) - - *W. C. Coker* and *J. D. Pemberton* 194

On the origin of angiosperms - - - - *Hans Hallier* 196

The generic name of Goldmania - - - *J. M. Greenman* 198

Lucien Marcus Underwood (with portrait) - - *Editors* 268

A convenient traveling balance (with two figures)- *W. W. Stockberger* 269

The toxic action of certain plant constituents.—

A correction - - - - - - - - *Editors* 271

Variations in Helianthus - - - - - *T. D. A. Cockerell* 338

Endosperm of Pontederiaceae (with four figures) - *R. Wilson Smith* 338

An abnormal *Porella platyphylla* (with three figures) - - - - - - - - - *F. M. Andrews* 340

On the contents of the pollen chamber of a specimen of *Lagenostoma ovoides* (with two figures) - - - - - - - - - *Margaret Benson* 409

The embryo of Ceratozamia. A physiological study. Contributions from the Hull Botanical Laboratory III (with seven figures) - - *Helen A. Dorety* 412

CURRENT LITERATURE - - - - - - 55, 137, 199, 272, 341, 417

For titles of books reviewed see index under author's name and Reviews - - - -

Papers noticed in "Notes for Students" are indexed under author's name and subjects.

NEWS - - - - - - - - - - 72, 144, 216, 287, 360, 423

DATES OF PUBLICATION

No. 1, January 16; No. 2, February 15; No. 3, March 12; No. 4, April 14; No. 5, May 15; No. 6, June 27.

ERRATA

P. 232, footnote 7, for 379 read 397.
P. 237, Table V, last number of fourth column, for 0.07 read 0.03.
P. 246, Table XVII, under copper, second column, fourth number, for 1950 read 1.50.
